Approved with Merit.	0	Lunch Price - Secondary	\$1.85
Approved with Warning	0	Pupil Transportation Program:	
Not Approved.	0	Average Daily Ridership 1998-99. . .	1,016
High School Graduates:		District Owned Operation	
High School Diplomas-Regular. . . .	106	* Certificates of Completion issued at a district level	
Other Completions*.	0	** Limited English Speaking (LEP)	

Superintendent's Highlights

The District recently passed another two year supplemental levy at a 72% yes vote rate, the highest in history. The general public has expressed its support for the educational programs available to our k-12 students.

The District received notice of a WIA grant in the amount of \$157,896.00. It will be useful for the district's projects in IOT, CISCO, PLATO consortium with local support groups.

CISCO students are wiring the county courthouse for e-mail, LAN and Internet. These students will be CISCO certified upon completion of the course in one year, which shall enable them to enter the work force upon graduation.

The alternative school has been successfully graduating a high percentage of its students annually.

Progress Towards Meeting District Goals

1999-00 Goals

Progress

The District's facilities are in need of repair and replacement. The junior high is not a school facility, but a compilation of temporary modulars and existing buildings in several locations.

The District has attempted two plant facility levies in the fall and spring, which have failed. The levy was to build a new high school. This would have allowed for the junior high to relocate to the high school.

There are millions of dollars of maintenance and improvements required throughout the district. The most recent fire marshal inspection indicated each of the sites has inadequate fire alarm systems.

The District shall continue to use forest funds and lottery money to make said improvements. Even though the funds are directed here, they are not adequate and the need for upgrades escalates.

The District strives to assist at-risk students by offering them alternatives to traditional education. There is an initiative to increase access to education and skills development. A WIA grant has an emphasis on paid work site experiences for students who have the training.

The District continues with summer alternative school, even start, migrant education, special education and early reading for early elementary students. The staff are very supportive of the summer programs by serving the students. The summer programs are in session up to twelve weeks.

The District is concerned for student safety and has had some Incident Command System training. Security measures are required at all sites.

The District is planning a mock crisis to be held by the junior high in conjunction with countywide response teams. This is planned for the fall of 2000.

Student Profiles

Ethnicity

Race	Male	Female	Total
White	47.65%	45.97%	93.62%
Black	0.00%	0.06%	0.06%
Hispanic	1.93%	2.23%	4.16%
